8. SPI Lighting announces Zynn 2 in. Lines + Arcs. The collection of radiant, simplistic lines and basic architectural elements allows designers to create intricate linear and curved patterns with ease. Providing 960 lumens per ft, and with only one power drop needed per 500 ft, this collection keeps ceilings illuminated and sleek.

9. Louis Poulsen introduces the Patera Oval pendant to the Patera family. Designed by Øivind Slaatto with a 360-deg view in mind and entirely hand-assembled, this pendant provides both direct lighting downward from its bottom opening and reflected light from its side cells. Ideal for hanging above spaces where ample head room is necessary in both larger venues and in more intimate dining settings.
