

SPI LIGHTING

Made in America

According to the Federal Trade Commission (FTC), “Made in America” means that “all, or virtually all,” product was, in fact, made on American soil. Our products are proudly manufactured in Mequon, WI, making them truly Made in the USA.

Buy American Act

SPI Lighting certifies that our light fixtures have been constructed with material that qualifies as “Domestic Construction Material” as defined in FAR Clause 52.225-11 Buy American Act-Construction Material under the American Recovery and Reinvestment Act (ARRA) of 2009.

Buy America

SPI Lighting products comply with Buy America requirements. This is in reference to requirements for Federal-aid highway construction (23 CFR 635.410) and applies to iron and steel products and their coatings.
