

IMPORTANT SAFETY AND INSTALLATION INSTRUCTIONS

WARNING: Risk of fire and electrical shock. This product is to be installed by a qualified electrician only.

CAUTION: When using electrical equipment, basic safety precautions should always be followed including the following: Read all instructions carefully before installation and save

for future use. Make sure installation and all connections are in accordance with National Electrical Code and any local regulations. To avoid possible electrical shock, be sure that power supply is turned off before installing or servicing this fixture. Servicing should be performed by qualified service personnel.

These instructions do not claim to cover all details or variations. When additional information is desired, please contact your SPI representative.

NOVATO LINES + ARCS (STANDALONE)

INSTALLATION INSTRUCTIONS:

1. Locate mounting locations using actual fixture(s) in desired location(s), Determine which mounting style is desired. (see Figure 1 & Figure 2)
2. Separate Coupler Flange(s) from Ceiling Coupler(s) and secure Coupler Flange(s) to ceiling. (Hardware by others.)
3. Feed Air Craft Cable(s) through Ceiling Coupler(s) and thread onto Coupler Flange(s).
4. Insert other end of Air Craft Cable(s) into Cable Gripper(s) on Fixture and pull to desired height.
5. Secure the j-box Cross Bar(s) onto the junction box(s.) (Hardware by others.)
6. Feed Power Cord(s) through Canopy(s) and Bushing(s). Cut Power Cord(s) to desired length and complete the circuit wiring within the junction box(s).
7. Secure Canopy(s) to the j-box Cross Bar(s) using the supplied hardware (See Figure 1 and Figure 2 for hardware).
8. Make necessary height adjustments and level the fixture using the Air Craft Cable Grippers.
