

IMPORTANT SAFETY AND INSTALLATION INSTRUCTIONS

WARNING: Risk of fire and electrical shock. This product is to be installed by a qualified electrician only.

CAUTION: When using electrical equipment, basic safety precautions should always be followed including the following: Read all instructions carefully before installation and save

for future use. Make sure installation and all connections are in accordance with National Electrical Code and any local regulations. To avoid possible electrical shock, be sure that power supply is turned off before installing or servicing this fixture. Servicing should be performed by qualified service personnel.

These instructions do not claim to cover all details or variations. When additional information is desired, please contact your SPI representative.

BRACE - SWITCH BOX COVER (WET LISTED - REMOTE BALLAST)

FIXTURE INSTALLATION

1. Locate Switch Boxes* per "MOUNTING LAYOUT" below. Secure Mounting Plate to Switch Box* with screws (by others.)
2. Hold Socket Housing near Switch Box* and complete fixture wiring per Instruction Sheet #IS56176X and local codes. Fasten Socket Housing to Mounting Plate with Flat Head Screws. Repeat for other Socket Housing.
3. Install Lamp Cartridge per instruction sheet #IS55167X. Test fixture to verify correct wiring. After testing, apply a bead of silicone (RTV) caulk around perimeter of each Socket Housing between the Socket Housing and mounting surface (wall.)

* NOTE: Standard octagonal junction boxes may be used with the larger junction box cover option.
