

IMPORTANT SAFETY AND INSTALLATION INSTRUCTIONS

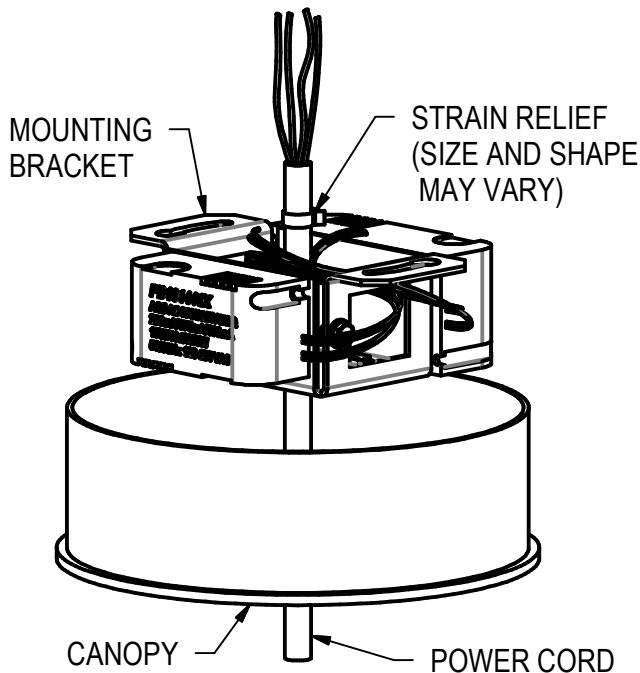

WARNING: Risk of fire and electrical shock. This product is to be installed by a qualified electrician only.

CAUTION: When using electrical equipment, basic safety precautions should always be followed including the following: Read all instructions carefully before installation and save

for future use. Make sure installation and all connections are in accordance with National Electrical Code and any local regulations. To avoid possible electrical shock, be sure that power supply is turned off before installing or servicing this fixture. Servicing should be performed by qualified service personnel.

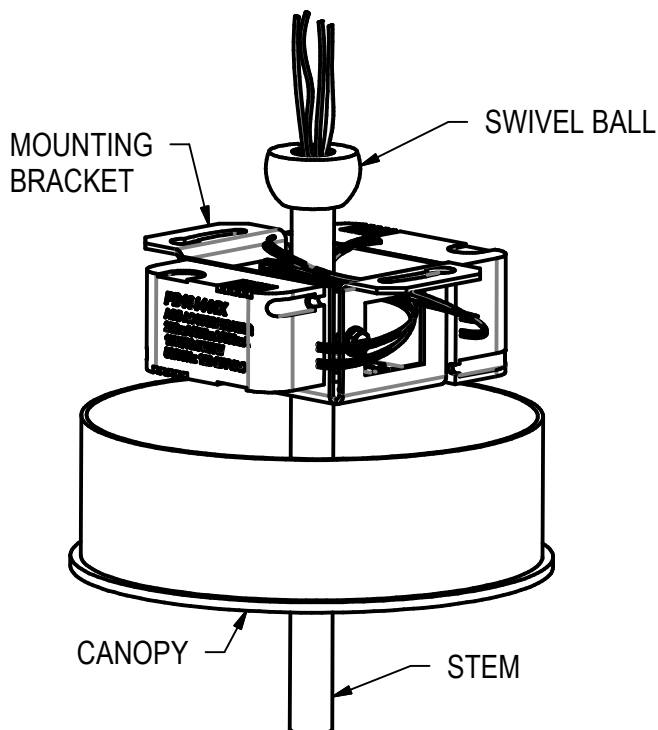

These instructions do not claim to cover all details or variations. When additional information is desired, please contact your SPI representative.

5.5" / 8" POWER SUPPLY CANOPY

Cord Suspension:

1. Pass the power cord thru the canopy and mounting bracket.
2. Secure the strain relief to the power cord.
3. Make all electrical connections per local codes.
4. Secure mounting bracket to the junction box (by others).
5. Slide the canopy up and over the mounting bracket to engage the spring clips with the pem studs.

Stem Suspension:

1. Pass the lead wires thru the stem and thread stem into fixture.
2. Slide the canopy and mounting bracket over the stem.
3. Mount the swivel ball to the stem.
4. Lift the fixture into position, make all electrical connections per local codes and secure to the junction box.
5. Slide the canopy up and over the mounting bracket to engage the spring clips with the pem studs.
