

IMPORTANT SAFETY AND INSTALLATION INSTRUCTIONS

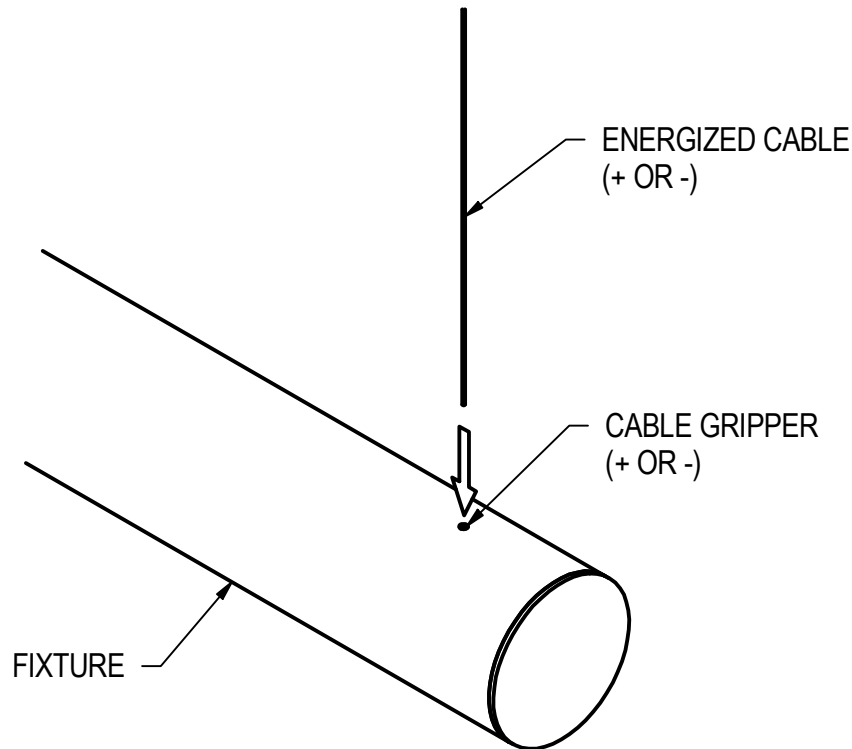

WARNING: Risk of fire and electrical shock. This product is to be installed by a qualified electrician only.

CAUTION: When using electrical equipment, basic safety precautions should always be followed including the following: Read all instructions carefully before installation and save

for future use. Make sure installation and all connections are in accordance with National Electrical Code and any local regulations. To avoid possible electrical shock, be sure that power supply is turned off before installing or servicing this fixture. Servicing should be performed by qualified service personnel.

These instructions do not claim to cover all details or variations. When additional information is desired, please contact your SPI representative.

PAVO 2 HORIZONTAL CABLE INSTALLATION

TO INSTALL CABLE:

1. Match up positive (+) cable to positive (+) labeled cable gripper. Match up negative (-) cable to negative (-) labeled cable gripper.
2. Insert end of cable into cable gripper and push into gripper until end of cable bottoms out. (Approximately 3/8")
3. Give each cable a slight tug to "set" the cable gripper. This step allows the gripper to break through the protective film on the cable to allow continuity.

TO REMOVE CABLE:

1. Depress the small metal sleeve on the top of the cable gripper using a small screwdriver, paper clip, or similar. While the sleeve is depressed, pull out cable.
