

# ECHO REFLECTIONS 9.0

**SPI**LIGHTING  
[www.spilighting.com](http://www.spilighting.com)

Whether you want to deliver low-glare indirect illumination, accentuate the verticality of the space, or directly light the exterior of a building, Echo Reflections 9.0 is the solution.

This powerful luminaire offers field adjustability and, unlike similar products, adjustable light engines that leave the fixture static.

## Features & Benefits

- Increase visual comfort, reduce glare, and improve light uniformity with indirect lighting
- Deliver high-power indirect illumination within a subtle architectural form
- Field adjustable distribution ratchets to five positions (-35°, -17.5°, 0°, 17.5°, and 35°) while maintaining a static housing
- Wet listed for exterior applications
- Choose from visually-matching indirect and direct luminaires
- Up to 130 lm/W delivered
