# THE LEADER IN LUMINOUS FORMS

From svelte 2" lines to stately 12" diameter columns, we've got you covered with the biggest and best collection of luminous cylindrical forms.

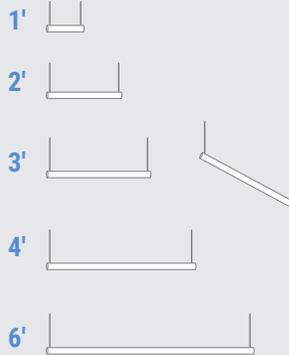

Even illumination (top to bottom and radially) and well-finished ends satisfy the highest-end applications. True to minimalist design, there are no metal collars to break the form.

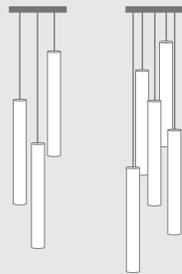

# FAMILY OVERVIEW

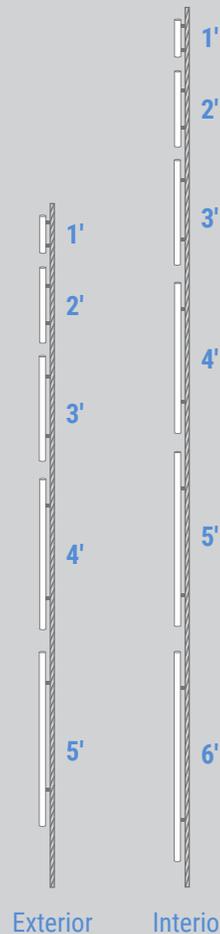

Mount horizontally  
or on any angle

3- or 5-cylinder clusters

## Wall mount

# IMPECCABLE ILLUMINATION. IMPRESSIVE PERFORMANCE.

- Linearly-lit pendants provide 360° of illumination along the entire length of the lens
- Provides a pleasing visual accent while lighting vertical planes
- A separately controlled performance downlight\* is available in various beam spreads to provide full lighting

*\*4", 6", 8" diameters*

# PAVO 2"

Create a striking visual accent with this industry first. Designed with groundbreaking purity and exceptional attention to detail, Pavo 2" is unlike anything you've seen before. Mount vertically or at any angle.

# PAVO 4", 6" CLUSTERS

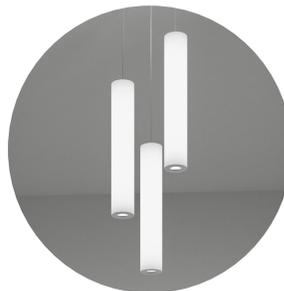

Effortlessly group Pavos into a cohesive design element. Comprised of your choice of three or five luminous cylinders on a single canopy array, each configuration combines the simplicity, clean lines, and balanced luminance you're looking for in an ideal luminous form.

## PERFORMANCE DOWNLIGHT

# PAVO SQUARE

This rectangular pendant is center-lit with a four-sided light engine that runs the entire length of the lens. Handcrafted with exceptional attention to detail, the diffuser has mitered corners that give the luminaire its distinctive edge.

# PAVO SQUARE 4", 6"

Crisp, clean, and impeccably illuminated, Pavo Square is distinguished by its exceptional fit and finish. Specify ambient only or add a separately switched 1,100 lm downlight with a 19°, 35°, or 45° beam spread.
