

ZYNN LINES

SPI LIGHTING
www.spilighting.com

With a cross-section of just 1.25", Zynn Lines suspends slim lines of light in contemporary spaces. Its seamless housing, energized cables, and refined finish differentiate this minimalist luminaire from the pack.

A fundamental design tool for today's architects and designers, Zynn Lines' small scale is easy to design with to create unique lighting configurations.

Minimalism refined:

- Hand-fabricated aluminum housing is seamless with no visible fasteners
- Evenly-illuminated acrylic frosted lens is flush with metal housing
- Exceptionally clean visual appearance from all angles

Versatile:

- Choose from direct or indirect distributions
- Available in extra-high (4' length only), high, and low wattages

Go cordless:

- Choose from four standard mounting options including 1mm energized cables
- Maximize efficacy with optional power cord

Available in
4' and 8' lengths.

Product overview:

Model Number	Nominal Length	Distribution	Total Wattage*	Delivered Lumens
