

ZYNN RING

SPI LIGHTING
www.spilighting.com

With a cross-section of just 1.25", the Zynn Ring is a stunning accent in contemporary spaces. It provides a comfortable source of brightness while delivering functional light. Its refined finishes and minimalist design make it a favorite for today's architects and designers. Hang in a cluster or as a single pendant; Zynn Ring will add style to offices, hospitality venues, and other intimate spaces.

Product overview:

Larger diameters available per project request

Minimalism refined

- Hand-fabricated aluminum housing is seamless with no visible fasteners
- Evenly-illuminated matte opal diffuser is seamless
- Exceptionally clean visual appearance from all angles
- Available in direct and semi-direct distributions

Go cordless

- Choose from four standard mounting options including 1mm energized cables
- Available in monopoint or straight cable mounts
- Maximize efficacy with optional power cord
