## DESCRIPTION

Echo Blade is the slimmest, most discreet high output asymmetric lighting tool on the market. It combines high output density with outstanding quality in a sleek, new architectural form that performs as great as it looks. With a profile just over 3", SPI Lighting's Echo Blade can deliver from 11,000 to 33,000 lumens. Specially constructed for wet locations, this IP66 rated luminaire is ideal for illuminating canopies with comfortable, glare-free light. ### Required Field \*

## A - LIGHT SOURCE \*

To ensure color consistency, SPI uses precise bin selection and strict quality processes to maintain a 3-step (MacAdam) SDCM on all white LED lampings. Published LED luminaire wattages are calculated using a typical power supply efficiency of 88%; exact wattages may vary based on application. Delivered lumens shown are with the Wide Asymmetric (WA) optical package; apply multiplier for alternate distribution.
