DESCRIPTION

Powered by next generation LED technology, Echo Round 9.0 is one of the most comfortable and efficient ways to deliver performance indirect lighting today. With it, you can effectively illuminate large, open spaces from the perimeter with high lumen packages and a forward throw of smooth, uniform light. Improve comfort and visibility by concealing the light source from view. Offered in 14,000 to 42,500 lumen packages, Echo Round 9.0 provides an impressive amount of light in a classic, compact design. For a complimentary lighting layout, contact our applications team at SPIteam@spilighting.com.

A - LIGHT SOURCE *

To ensure color consistency, SPI uses precise bin selection and strict quality processes to maintain a 3-step (MacAdam) SDCM on all white LED lampings. Published LED luminaire wattages are calculated using a typical power supply efficiency of 88%; exact wattages may vary based on application. Alternative wattages available upon request.
