DESCRIPTION

With a slim 2.3" profile, Lightruss Rail is the most compact product in the revolutionary Lightruss family. Designed with integrated LED modules, it brightly illuminates large spaces powerfully and efficiently. Mounted on a single rail, the system's streamlined design blends seamlessly with ceiling construction. Hinged housings clamp over the rail and are self-supporting without tools, simplifying installation and maintenance. It's an elegant way to safely light natatoriums or other high ceiling applications. For a complimentary lighting layout, contact our applications team at SPItteam@spilighting.com.

FEATURES & BENEFITS

- Create a contemporary look with this low profile, single rail design
- Present a clean visual package by encapsulating wireways and eliminating vertical stems
- Lessen glare on surfaces, increase visual comfort and improve light uniformity with indirect lighting
- Robust construction with natatorium option
- Eliminate fixtures over pools
- Save 25 to 30 percent on installation costs by reducing the number of power drops
- Gain freedom and flexibility for ideal positioning of luminaires regardless of ceiling impediments such as supports, HVAC and other systems
- Access and remove lighting modules without disassembling the entire system
- Choose from visually-matching indirect and direct lighting luminaires
- Rail system can be modified to turn corners and change elevations
- Handcrafted in USA, BABA Compliant

A - LIGHT SOURCE *

To ensure color consistency, SPI uses precise bin selection and strict quality processes to maintain a 3-step (MacAdam) SDCM on all white LED lampings. Published LED luminaire wattages are calculated using a typical power supply efficiency of 88%; exact wattages may vary based on application. Alternative wattages available upon request.
