

# Pavo 4" & 6" Clusters

SIP12200 4.00 in | (5) Cylinder

JOB NAME:

TYPE:

NOTES:

## DESCRIPTION

Effortlessly group five Pavo 4" cylinders into a cohesive design element on this single canopy array. The configuration combines the simplicity, clean lines, and balanced luminance that you're looking for in an ideal luminous form. Designed with meticulous attention to detail, each luminaire is evenly illuminated from top to bottom and radially. Well-finished ends satisfy the highest-end applications. And true to its minimalist design, it has no metal collars to break the form. Alternate sizes and configurations are available upon request.

## FEATURES & BENEFITS

- A unified grouping of 3' luminous cylinders
- Matching bi-planar finish detail on top and bottom maximizes visual appeal from all angles
- Integrated LED luminaire design features a sophisticated passive cooling system with integrated heat sink
- 1100lm integral regressed downlight available with beam spread of spot (19°), narrow (35°), and medium (45°)
- Ambient and downlight components are standard with separate switching and 0-10v dimming
- Available in either stem or power cord suspension
- Handcrafted in USA, BABA Compliant

## A - LIGHT SOURCE \*

To ensure color consistency, SPI uses precise bin selection and strict quality processes to maintain a 3-step (MacAdam) SDCM on all white LED lampings. Published LED luminaire wattages are calculated using a typical power supply efficiency of 88%; exact wattages may vary based on application. Alternative wattages available upon request. Please note, photometry files contain data for single pendants. To create clusters, layer the individual files according to your project's specification.
